

Semantic Crossreferencing

Jane Doe

October 7, 2014

1 Setting up Semantic References

In a nutshell: How to set up semantic references? Easy, just use the `omgroup` environment from the `omdoc` package.

2 Testing the References

Now, we test the referencing mechanism

Internal Referencing: First single references: Section0 and Section1, and then compound ones: Section0 and Section1

External Referencing: First single references: [IDC, Section0] and [IDC, Section1]
