1 Setting up Semantic References

In a nutshell: How to set up semantic references? Easy, just use the `omgroup` environment from the `omdoc` package.

2 Testing the References

Now, we test the referencing mechanism

Internal Referencing: First single refrences: Section 0 and Section 1, and then compound ones: Section 0 and Section 1

External Referencing: First single references: [**?**, Section 0] and [**?**, Section 1]
